To Whom It May Concern:

In my ten years in marketing with Comcast cable, I would often receive inquiries from my associates at cable networks, looking for "expert" resources related to various programming or marketing projects that they had underway. On several occasions, I was asked if I knew any Polygraph experts. On all these occasions I highly recommended to the networks Mr. Howard Temple of Accredited Polygraph Service.

From subsequent discussions I had with networks where I had referred Mr. Temple and his service, I am under the understanding that Mr. Temple did an excellent job providing them with polygraph services that were utilized as a component of News shows or pilots produced by the networks.

I would not hesitate in recommending Mr. Temple's services to any network looking for a seasoned polygraph expert.

Sincerely,

Michael Snyder
