Dear Howard,

I'm very grateful to you for facilitating our request to document a polygraph test for our Investigation Discovery series Bad Blood. When we approached you, we were not short on demands. We called with little notice, needing an expert in the field to come equipped with a choice apparatus and join us on our location at a specific time. Above all, we insisted on accuracy, so that our depiction would ring true.

You delivered. The result is a series of dramatic and cinematic sequences we are featuring in multiple programs. Each of these episodes has a suspenseful turn hanging on the results of a polygraph test, and you provided us with the visual tools we needed to do our stories justice.

Thank you for being so responsive to our production needs, and for helping make our series such a success.

Best wishes,

Jonathan Grupper

Co-Executive Producer
